RIO HONDO REGIONAL TRAINING

Skill Evaluation Sheet

Student Comments:	
--------------------------	--

Rater Comments:

MAJOR ERRORS (Automatic Failure Criteria)				MINOR ERRORS			
		Description	IP			Description	I P
	AF	Webbing across neck or airway	5			Unsecured PPE at any time	1
	AF	Failure to complete operation	5			Abuse of equipment	1
	AF	Failure to complete any Critical Step	5				
	AF	Failure to tie correct knots	5				

Procedure:

	OPERATION	KEY POINTS	MS	FMS
1.	Lay a length of webbing	1a. Across litter 1b. At level of victims crotch 1c. Transverse the litter 1d. With midpoint of webbing at the center of litter		

RIO HONDO REGIONAL TRAINING

Skill Evaluation Sheet

2.	Form an 18" loop	2a. In a length of webbing		
		2b. With the loop at the midpoint of the webbing		
3.	Lay a loop in the litter	3a. At the location of the victims head		
		3b. With webbing ends laying over the main frame		
		3c. One end on each side		
CHEST LASH				
4.	Pass loop	4a. Over victim's head		
		4b. To nipple line		
5.	Wrap webbing ends	5a. Under each arm		
		5b. Through loop on chest		
6.	Remove slack	6a. Ensuring crossed webbing at victim's shoulder blades does not ride up on neck		
7.	Tie an overhand knot	7a. In the webbing around the loop		
		7b. At the point it passes over the nipples		
		7c. Both sides		
8.	Tie a round turn & two half hitches	8a. At the ends of the webbing		
		8b. Around a rib below the victims chest		
		8c. Where the rib meets the main frame		
		8d. Remove slack		
		8e. To secure the webbing		
PELVIC LASH				
9.	Pull midpoint of webbing	9a. Through the legs		
		9b. Up to victims chest		
		9c. Creating a 6" triangle		
10.	Wrap webbing	10. Around the thighs		
11.	Pass ends of webbing	11a. Through the triangle		
		11b. Pulling up towards the shoulder		
		11c. Removing slack		
12.	Tie an <u>overhand</u> knot	12a. In the webbing		
		12b. At the point it passes through the triangle		
		12c. Both sides of the triangle		
13.	Tie a round turn & two half hitches	13a. At the ends of the webbing		
		13b. Around a rib near the victim's shoulders		
		13c. Where the rib meets the main frame		
		13d. Removing the slack		
		13e. To secure the webbing		
EXTERIOR LASH				
14.	Place one length of webbing	14a. Across the victim's legs		
		14b. Below the knees		
		14c. Midpoint of the webbing between the knees		
15.	Pass the ends of the webbing	15a. Around the rib		
		15b. Below the victim's knees		
		15c. Both sides		
		15d. Where the rib meets the main frame		
		15e. Removing slack		
		15f. Do not wrap main frame		
16.	Cross the webbing			
17.	Pass the ends of the webbing	17a. Around the next rib		
		17b. Moving towards the head		
		17c. Both sides		
		17d. Where the rib meets the main frame		
		17e. Removing slack		
18.	Tie a round turn & two half hitches	18a. At one end of the webbing		
		18b. Around a rib		

RIO HONDO REGIONAL TRAINING

Skill Evaluation Sheet

		18c. Near the victim's shoulder		
		18d. Where the rib meets the main frame		
		18e. To secure the webbing		
19.	Pull slack	19a. From secure end		
		19b. Towards free end		
20.	Tie a round turn & two half hitches	20a. At the end of the webbing		
		20b. Around a rib		
		20c. Near the victim's shoulder		
		20d. Where the rib meets the main frame		
		20e. To secure the webbing
